

# MASSOCARE CP

## DESCRIPTION

**MASSOCARE CP** consists of esters of cetyl alcohol and saturated high-molecular-weight fatty acids, principally palmitic acid.

## INCI NAME

Cetyl Palmitate

## PRODUCT SUMMARY

- **Physical appearance:** Solid waxy flakes
- **Function:** Emollient, skin conditioning, thickener
- **Applications:** All purpose skin care creams and lotions, colour cosmetics, sun care products
- **Use Level:** 1% - 5%

## FEATURES & BENEFITS

- Waxy solid **emollient**
- Cetyl palmitate is one of the main components of body fat. It is also the primary constituent of **spermaceti**, the wax found in the skull of sperm whales, and it has properties quite similar to that wax
- Provides **rich and dry texture**
- **Lubricates** and **conditions** the skin's surface, helping it to appear softer and smoother
- Improves **emulsions' stability** by providing consistency
- **Vegetable** derived
